Jati Kebon's heritage

The most beautiful spaces are the ones beneath the open sky.

More than three decades ago, Jati Kebon was founded with a simple vision: to create outdoor spaces where people feel inspired to slow down, connect and enjoy life beyond four walls. Today, that same vision continues to shape everything we create.

We believe outdoor living should never feel separate from the spaces where life unfolds. It should be a seamless extension of the way we live, where architecture, nature and design exist in perfect harmony. By blurring the boundaries between indoors and outdoors, we create timeless environments that invite people to gather, relax and make lasting memories. Every Jati Kebon collection is guided by this philosophy.

Refined Belgian design, carefully selected materials and lasting craftsmanship come together to create outdoor furniture that feels effortless, inviting and built to stand the test of time. Whether enhancing a private garden, a boutique hotel, a rooftop terrace or a hospitality project, every collection is designed to elevate the experience of outdoor living.

At Jati Kebon, we believe great design is measured by the moments it creates. The conversations that last a little longer. The quiet mornings, shared dinners and unforgettable evenings. Because in the end, outdoor furniture is never just about furniture. It is about creating spaces where people feel at home, wherever they are.

Altea

Summer is full of beautiful contrasts. Warm sunlight meets cool shade. Golden beaches meet endless blue horizons. Quiet mornings become lively evenings. Inspired by the charm of the Spanish coastal town of Altea, the collection combines warm aluminum finishes with distinctive bi-colored straps that weave two carefully selected tones into a single design. Altea's wide tapered legs introduce a sculptural touch to the collection. Their inverted conical shape gives the design a strong identity, combining a bold presence with soft, flowing lines. The result is a collection where color, texture and craftsmanship come together in a fresh, expressive interpretation of outdoor living.

WOVEN IN PERFECT BALANCE
