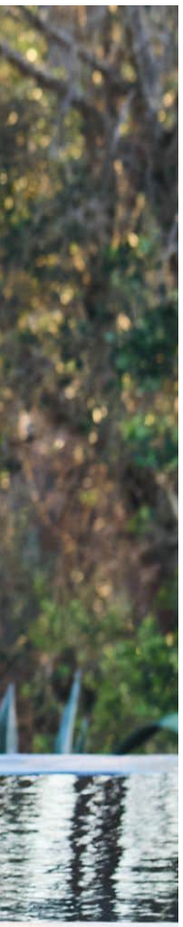
Jati Kebon's vision



The most beautiful spaces are the ones beneath the open sky.

More than three decades ago, Jati Kebon was founded with a simple vision: to create outdoor spaces where people feel inspired to slow down, connect and enjoy life beyond four walls. Today, that same vision continues to shape everything we create.

We believe outdoor living should never feel separate from the spaces where life unfolds. It should be a seamless extension of the way we live, where architecture, nature and design exist in perfect harmony. By blurring the boundaries between indoors and outdoors, we create timeless environments that invite people to gather, relax and make lasting memories. Every Jati Kebon collection is guided by this philosophy.

Refined Belgian design, carefully selected materials and lasting craftsmanship come together to create outdoor furniture that feels effortless, inviting and built to stand the test of time. Whether enhancing a private garden, a boutique hotel, a rooftop terrace or a hospitality project, every collection is designed to elevate the experience of outdoor living.

At Jati Kebon, we believe great design is measured by the moments it creates. The conversations that last a little longer. The quiet mornings, shared dinners and unforgettable evenings. Because in the end, outdoor furniture is never just about furniture. It is about creating spaces where people feel at home, wherever they are.

Santiago Sevillano

"The best outdoor spaces don't ask for attention. They simply make you want to stay."

Our collaboration with Santiago Sevillano began with a shared belief: great outdoor design should exist in harmony with its surroundings. Rather than competing with nature, it should complement it, creating spaces where people feel connected and at ease.

Known for his organic design language and sculptural approach, Santiago Sevillano brings a distinctive creative vision that perfectly complements Jati Kebon's philosophy. Together, we share a passion for timeless design, exceptional comfort and craftsmanship that stands the test of time.

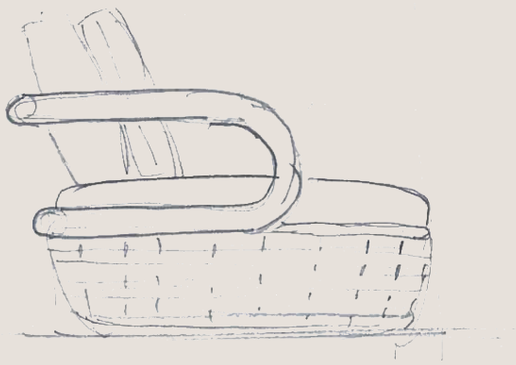
This collaboration gave life to the Phil and Canasta collections, each with its own unique character while united by the same vision. Designed for private gardens, hospitality environments and architectural projects alike, they reflect our ambition to create outdoor furniture that feels natural and perfectly integrated into its surroundings.

Together, we continue to develop collections that celebrate thoughtful design, lasting quality and memorable outdoor experiences.

The Phil Collection

Phil explores the softer side of contemporary outdoor design. Through organic shapes, flowing lines and expressive colors, Santiago Sevillano created a collection that brings warmth, comfort and sculptural elegance together in perfect balance.

More than a collection, Phil reflects a shared belief that outdoor furniture should live in harmony with its surroundings while encouraging people to slow down and enjoy every moment.



The Canasta Collection

With Canasta, Santiago Sevillano reinterprets traditional woven forms through a contemporary design language. Generous rope details, balanced proportions, and a sculptural silhouette create a collection with a distinctive yet timeless character.

Canasta expresses a shared appreciation for craftsmanship, authenticity, and outdoor spaces that feel naturally welcoming.

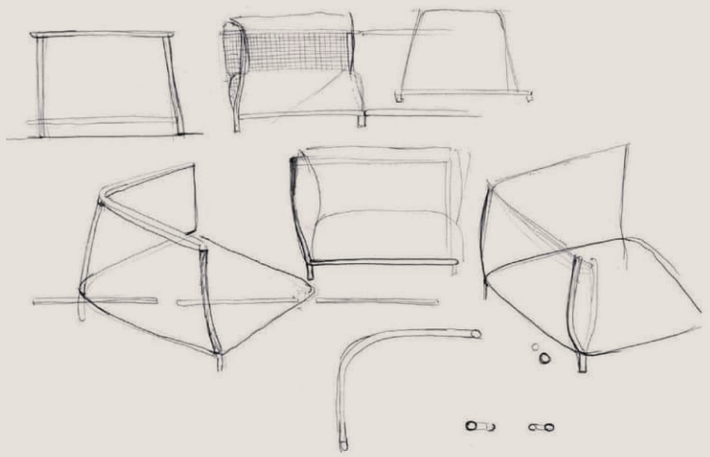
La Mamba Studio

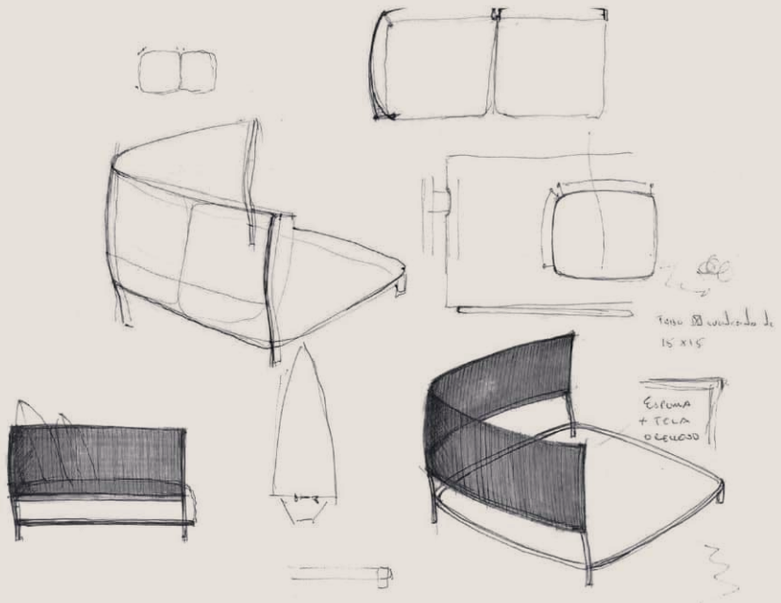
"Design is not just what we create, but how we connect."

Our collaboration with La Mamba Studio is built on a shared vision of contemporary outdoor living, where thoughtful design, comfort and simplicity come together effortlessly.

Based in Valencia, the studio is known for creating collections with a refined architectural character, balanced proportions and timeless appeal. The Cala collection was created based on this philosophy, with each piece exuding its own identity while reflecting the same commitment to exceptional design and lasting quality.

Together, we continue to create outdoor furniture that feels authentic and naturally connected to the way people live outdoors.





The Cala Collection

Cala reflects La Mamba Studio's refined approach to outdoor design, where elegant proportions and woven textures create a timeless sense of balance. Every detail has been carefully considered to combine visual lightness with everyday comfort.

The result is a collection that feels understated, sophisticated and perfectly at home outdoors.

Made Studio

"Balancing the rational and emotional."

Our collaboration with Made Studio is driven by a shared belief that great design should be both functional and emotional. Together, we create outdoor furniture that not only serves a purpose but also enriches the way people experience life outdoors.

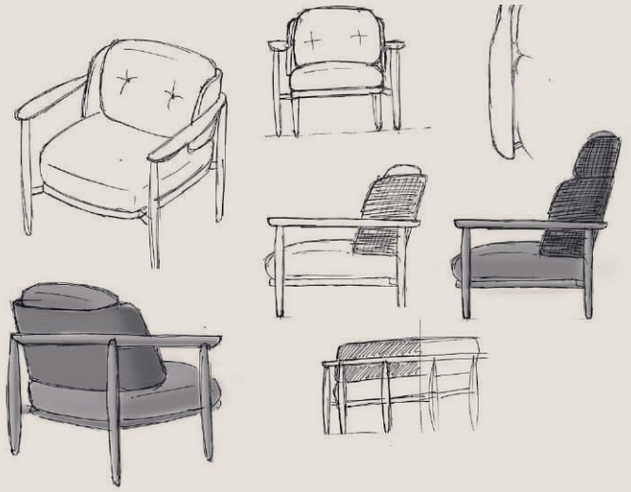
Founded by Borja García and Laura Ros, Made Studio is known for its refined approach to contemporary design, where clean lines, thoughtful details and balanced proportions come together naturally. This shared philosophy inspires collections that combine everyday comfort with timeless elegance.

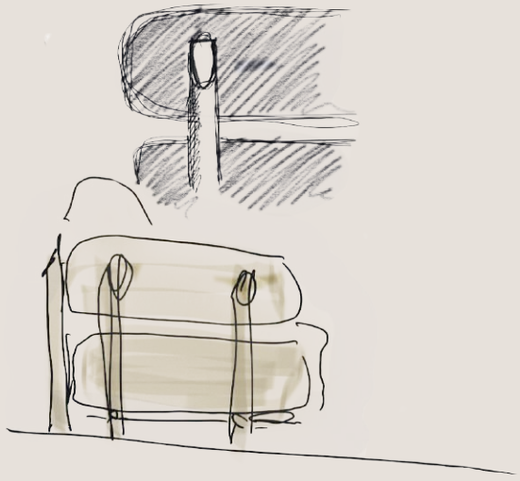
Together, we continue to create outdoor furniture designed to be enjoyed for years to come.

The Boho Collection

Boho embodies Made Studio's philosophy of balancing the rational and the emotional. Inspired by handcrafted rope techniques, the collection combines tactile textures with contemporary forms in a design that feels both authentic and refined.

Warm, expressive and welcoming, Boho brings character to any outdoor setting.





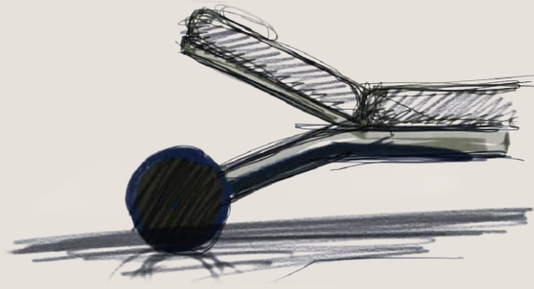
The Polo Collection

Polo reflects Made Studio's vision of slowing down through thoughtful design. Soft proportions, generous cushions and its distinctive side panels create a collection that feels relaxed, balanced and naturally comfortable. Designed to embrace everyday outdoor living, Polo celebrates comfort in its purest form.

The Dolce Sunlounger

Dolce expresses Made Studio's pursuit of simplicity through clean lines, balanced proportions, and soft, flowing forms. Every detail has been refined to create a sunlounger that feels light, elegant, and exceptionally comfortable.

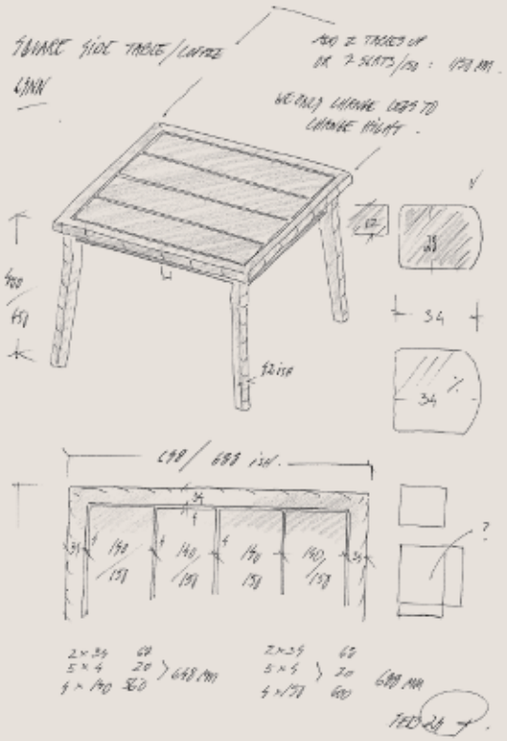
A timeless design created for moments of complete relaxation.



Povl Eskildsen

Our collaboration with Povl B. Eskildsen is rooted in a shared appreciation for timeless design, honest materials and furniture that is made to be lived with. Together, we believe lasting design begins with simplicity, functionality and attention to every detail.

Drawing on his architectural background and Scandinavian design heritage, Povl brings a refined perspective where clean lines, balanced proportions and everyday comfort come together naturally. This shared philosophy inspired the Lynn collection, combining timeless elegance with the flexibility of contemporary outdoor living. Together, we continue to create outdoor furniture that feels intuitive, enduring and beautifully understated.



"With Lynn, we've created a collection that's as luxurious as it is eco-conscious."

The Lynn Collection

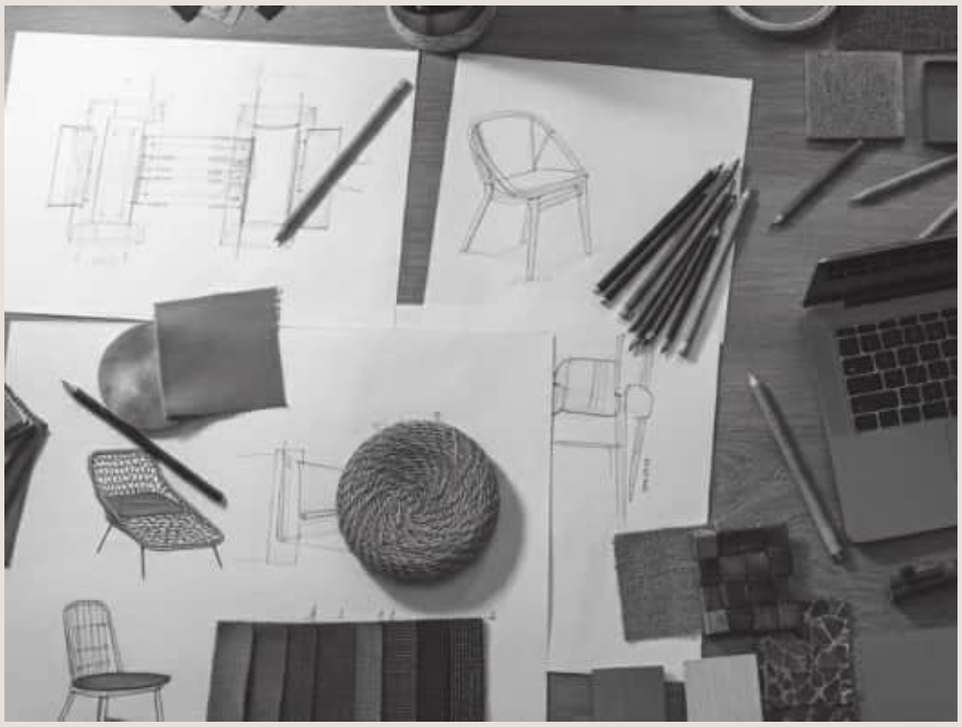
Lynn is an expression of Scandinavian design at its purest. Inspired by the timeless elegance of Danish classics, the collection combines clean lines, honest materials and balanced proportions in a warm, understated design.

From seamless finger joints to carefully concealed end grain, every detail has been thoughtfully crafted to celebrate precision, simplicity and lasting quality.

The result is a collection that feels refined, versatile and enduring.

JK Design Studio

Where indoor comfort meets the beauty of the outdoors.



Every great collection begins with an idea. At Jati Kebon Design Studio, our in-house design and development teams in Belgium and Asia transform those ideas into outdoor furniture that combines timeless design, everyday comfort, and lasting quality.

By bringing together creative vision, technical expertise, and a deep understanding of materials, every collection is carefully refined from the first sketch to the final detail. The result is outdoor furniture that feels elegant, functional, and made to be enjoyed for years to come.

Driven by innovation and inspired by the way people live outdoors, Jati Kebon Design Studio creates collections that blur the boundaries between indoor comfort and outdoor living

Canasta

Designed by
Santiago Sevillano

Every collection begins with a story. Canasta begins in the olive groves of Puglia. Inspired by the traditional baskets used during the harvest, Santiago Sevillano reimagined their woven character through generous rope detailing and elegant aluminum frames. The result is a collection that feels welcoming and deeply rooted in the Mediterranean landscape that inspired it. From generous lounge seating and elegant tables to luxurious sunloungers, Canasta offers a versatile family of outdoor furniture created for relaxation, connection and long days spent outdoors.

CHOOSE YOUR MEDITERRANEAN MOOD

Inspired by the landscapes of Puglia, Canasta is available in two distinctive finishes, each expressing a different character. The natural green shade reflects the beauty of ancient olive groves, while the warm bronze tone captures the golden glow of Mediterranean sunsets. Two colors, two atmospheres, each bringing its own Mediterranean character to outdoor spaces.

SOAK UP THE SUN

The Canasta sunlounger was made for slow afternoons beneath the open sky. Whether relaxing by the pool, enjoying your favourite book or simply listening to the sounds of summer, its adjustable reclining positions let you find the perfect position to unwind. A refined combination of craftsmanship, comfort and effortless relaxation.

Phil

Designed by
Santiago Sevillano

Every space deserves a warm welcome. Phil was designed to offer exactly that. Designed by Santiago Sevillano, the collection celebrates the softer side of outdoor living through organic shapes, flowing lines and generous proportions. Inspired by the vibrant sunsets of the Philippines, Phil brings warmth, character and exceptional comfort to every setting. Sculptural yet approachable, the collection strikes a seamless balance between refined design and everyday living, encouraging people to slow down, connect and enjoy every moment outdoors.

“With Phil, we designed more than furniture. We shaped moments of togetherness under the open sky.”

Product materials

Every Jati Kebon piece begins with carefully selected materials. From durable aluminum and premium teak to all-weather fabrics, rope, and refined ceramic surfaces, each material is chosen for its beauty, performance, and ability to withstand outdoor living.

By combining thoughtful design with lasting craftsmanship, we create outdoor furniture that feels comfortable, functional, and made to be enjoyed season after season. Materials are never just part of the construction. They shape the character, quality, and experience of every collection.

Green Mat

Lightweight, durable, and beautifully refined, aluminum is one of the defining materials of the Jati Kebon collection. Finished with a premium powder coating, it offers exceptional weather resistance and effortless maintenance. Available in a carefully curated palette including Dune, Charcoal, Rust, Green, and Bronze, each finish brings its own distinctive character to outdoor living.

Teak Wood

Teak Natural

Timeless, warm, and naturally beautiful, premium teak is one of the signature materials of Jati Kebon. We carefully select only the finest Indonesian A-grade teak, renowned for its exceptional durability and distinctive character. As the wood naturally matures, it develops an elegant silvery-grey patina, adding even more beauty to every outdoor space.

Italian ceramic captures the richness of natural stone while offering the performance required for outdoor living. Every tabletop features subtle variations in tone and texture, giving each piece a unique appearance. Highly resistant to scratches, stains and changing weather conditions, it combines everyday practicality with refined aesthetics for years of effortless enjoyment.

Wicker

Linen

Black Brown - Brown - Linen

Green - Brown - Linen

Our premium rope combines the beauty of natural textures with the performance of advanced outdoor materials. Crafted from 100% high-quality polyolefin fibers, it is lightweight, exceptionally durable, and easy to maintain. Naturally resistant to UV exposure, moisture, chlorine, stains, mold, and bacteria, it is designed to withstand everyday outdoor living while preserving its softness, color, and distinctive appearance for years to come.

For the Canasta collection, two exclusive multi-tone rope weaves have been specially developed to enhance its distinctive character. Inspired by traditional basket weaving, each refined weave combines carefully selected shades to create remarkable depth, texture, and a beautifully natural look. A celebration of craftsmanship that brings warmth and timeless character to every outdoor space.

Danish Cord

Natural

Danish cord is a durable and weather-resistant outdoor material made from tightly woven polyethylene fibers. This synthetic material mimics the look of natural Danish cord but offers superior performance in harsh conditions. It's UV-resistant, preventing fading and cracking, and its non-porous nature makes it easy to clean and maintain. Danish cord can withstand rain, sun, and temperature fluctuations, making it ideal for outdoor furniture. It's also lightweight and flexible, allowing for comfortable seating with a touch of natural elegance.

Sunbrella fabrics

Sunbrella® fabrics combine luxurious comfort with exceptional outdoor performance, offering outstanding colorfastness and long-lasting resistance to sunlight, moisture, and microorganisms. Designed for maximum durability with minimal maintenance, they are water-repellent, stain-resistant, and easy to clean, often requiring nothing more than soap and water for everyday care. Likewise, Sunbrella® fabrics deliver an ideal balance of strength, comfort, and reliability.
